*I am the health officer of the City & County of San Francisco, and director of the Population Health Division (PHD) at the San Francisco Department of Public Health. Striving to embody and promote the universal values of humility, compassion, equity and dignity, I work to convene, connect, and catalyze communities and institutions to transform narratives, policies, and systems toward a sustainable culture of equity, healing and health for all people and our planet. As health officer, I exercise leadership and legal authority to protect and promote equity and health. As PHD director, I direct public health services. I teach population health data science (with R) at the U.C. Berkeley School of Public Health and I maintain a [public health blog](#) with a focus on population health [equity](#), [leadership](#), [lean](#), and [data science](#).*

## Education

## Academic Honors & Awards

|   |                          |
|---|--------------------------|
| <b>University of California, Berkeley</b>   | <b>Berkeley, CA</b>      |
| <i>Ernest B. Collins Award, Awarded for academic achievement and community service</i>  | June, 1983               |
| <b>Awarded while at Harvard Medical School</b>  | <b>Boston, MA</b>        |
| <i>National Hispanic Scholarship</i>  | 1985                     |
| <b>Harvard Medical School</b>   | <b>Boston, MA</b>        |
| <i>Harvard Medical School Graduate Award, Awarded for academic and community service</i>  | June, 1988               |
| <b>Department of Medicine, UC San Francisco / SF General Hospital</b>   | <b>San Francisco</b>     |
| <i>Julius R. Krevans Award for Clinical Excellence</i>  | July, 1989               |
| In recognition of excellence in patient care, as exemplified by clinical competence, professional conduct, compassion for patients and outstanding interaction with all levels of staff, including peers. |                          |
| <b>UC Berkeley School of Public Health</b>  | <b>Berkeley, CA</b>      |
| <i>Warren Winkelstein Epidemiology Award</i>  | May, 2000                |
| In recognition of outstanding contributions to the field of epidemiology during doctoral graduate studies.  |                          |
| <b>City and County of San Francisco</b>   | <b>San Francisco, CA</b> |
| <i>Latino Heritage Award in Health and Medicine</i>   | Oct, 2012                |
| In recognition to protecting and promoting community health and equity in San Francisco.  |                          |
| <b>Applied Public Health Statistics, American Public Health Association</b>   | <b>Washington, DC</b>    |
| <i>Achievement in Government Award</i>  | Nov, 2018                |
| In recognition for outstanding contributions to statistics and public health in government.   |                          |

## Professional Certifications & Memberships

|  |                   |
|--|-------------------|
| <b>Stanford University, Center for Professional Development</b>              | <b>California</b> |
| <i>Certification in Strategic Decision and Risk Management in Healthcare</i> | 2015–2017         |

Certificate awarded in 2016. Completed Stanford University courses below:<sup>a</sup>

- XSDR120-080: Decision Quality
- XSDR122-043: Decision Analysis
- XSDR123-021: Managing Risk in Healthcare Organizations
- XSDR220-043: Biases in Decision-Making
- XSDR221-041: Strategic Innovation and Design Thinking
- XSDR222-041: Value-Driven Enterprise Risk Management
- XSDR225-011: Collaborative Decision-Making and Negotiation
- XSDR226-009: Scenarios and Effective Forecasting
- XSDR320-035: Advanced Decision Analysis
- XSDR321-060: Modeling for Strategic Insight
- XSDR322-053: Leading Strategic Decision-Making
- XSDR420-012: Decision Quality Practicum
- XAPM110-122: Converting Strategy into Action (advanced portfolio/project management)

<sup>a</sup> In 2015, completed business courses in accounting, corporate finance, economics, marketing and

analytics from California State University, Dominguez Hills.

|  |                                |
|--|--------------------------------|
| <b>Medical Board, State of California</b><br><i>Physician and Surgeon, License G 068687</i>  | <b>California</b><br>1991– ... |
| <b>American Board of Internal Medicine, No. 139201</b><br><i>Diplomate in Internal Medicine, Certified 09/25/1991, Re-certified 11/07/2001</i> | <b>California</b><br>1991–2011 |
| <b>American College of Physicians-American Society of Internal Medicine</b><br><i>Member</i>   | 1991– ...                      |
| <b>American Public Health Association</b><br><i>Member</i>   | 2010– ...                      |
| <b>San Francisco Marin Medical Society</b><br><i>Board member</i>  | 2011– ...                      |

## Scientific Committee Service

|  |  |
|--|--|
| <b>Latinx Center of Excellence, UCSF Center for Vulnerable Populations</b><br><i>Committee Member</i>  | <b>San Francisco, CA</b><br>2018–present |
| Partner with Hispanic Serving Institutions to increase the number of students competitive for medical school admissions; Create a leadership enrichment summer program to enhance Latino/URM medical student ability to compete for highly competitive residency programs; Double the proportion of Latino faculty through the creation of (a) an academic career program that will target Latino/other URM residents, and (b) a faculty academic development program that will enhance our ability to recruit and promote Latino/URM faculty; Review and revise UCSF SOM curriculum to ensure key competencies in care of Latinos are taught and assessed; Expand a highly successful research program for UCSF Latino/URM medical students and undertake activities that will expand Latino population-oriented research at UCSF; and Expand off-campus clinical training with highly vulnerable Latino patients for Latino and non-Latino medical students. |  |
| <b>Governor’s Advisory Committee on Precision Medicine</b><br><i>Committee Member</i>  | <b>Sacramento, CA</b><br>2017–present    |
| Precision medicine uses data-driven tools and analysis to develop new diagnostics, therapies and insights into health and disease. Governor Brown announced the California Initiative to Advance Precision Medicine ( <a href="http://opr.ca.gov/ciapm/">http://opr.ca.gov/ciapm/</a> ) in April 2015 as the first-in-the-nation, state-level effort to fund focused precision medicine projects to improve care and treatment for specific diseases. The committee advises the Governor’s Office on emerging precision medicine policy issues, such as data sharing and data privacy within and across technology platforms and tools; clinical utility of precision medicine approaches to care; patient and provider engagement and education; and economic impact and sustainability of precision medicine-based treatments. In December, 2018, the committee released it’s report <b>Precision Medicine—An action plan for California</b> .               |  |
| <b>UCSF Center for Community Engagement (CCE) Council</b><br><i>Council Member</i>   | <b>San Francisco, CA</b><br>2014–present |
| The Center for Community Engagement (CCE) coordinates and facilitates UCSF community-academic-health and healthcare partnerships to promote civic engagement and foster health and well-being. CCE leverages UCSF’s role as an anchor institution with the goals of creating opportunity, advancing equity and improving health outcomes in under resourced communities.   |  |
| <b>Institute of Medicine</b><br><i>Committee Member</i>  | <b>Washington, DC</b><br>2012–2012       |
| Committee on the Assessment of Studies of Health Outcomes Related to the Recommended Childhood Immunization Schedule. Review safety of childhood immunization schedule, and review and recommend research study designs and methods to assess the safety and population health outcomes of making changes to the schedule. Final Report: IOM (Institute of Medicine). 2013. <i>The childhood immunization schedule and safety: Stakeholder concerns, scientific evidence, and future studies</i> . Washington, DC: The National Academies Press. Available at <a href="http://www.nap.edu/catalog.php?record_id=13563">http://www.nap.edu/catalog.php?record_id=13563</a>  |  |

## Centers for Disease Control and Prevention

Atlanta, CA

Member

2008–2011

National Biosurveillance Advisory Subcommittee. Provide counsel to the CDC and Federal Government regarding a broad range of human health surveillance issues arising from the development and implementation of a roadmap for the human health component of a national biosurveillance system. Final report: Report to the Advisory Committee to the Director, CDC. *Improving the Nation's Ability to Detect and Respond to 21 st Century Urgent Health Threats: Second Report of the National Biosurveillance Advisory Subcommittee*. April, 2011. Available at [http://www.cdc.gov/about/pdf/advisory/nbasfinalreport\\_april2011.pdf](http://www.cdc.gov/about/pdf/advisory/nbasfinalreport_april2011.pdf)

## Centers for Disease Control and Prevention

Atlanta, GA

Member

2008–2009

Biosurveillance Measurement Workgroup, Outcome Monitoring and Evaluation Branch, Division of State and Local Readiness, Coordinating Office for Terrorism Preparedness and Emergency Response, CDC. Developed a standardized and robust set of performance measures for CDC's Public Health Emergency Preparedness Cooperative Agreement. Final report available at [http://www.cdc.gov/about/pdf/advisory/nbasfinalreport\\_april2011.pdf](http://www.cdc.gov/about/pdf/advisory/nbasfinalreport_april2011.pdf)

## Centers for Disease Control and Prevention

Atlanta, GA

Expert Consultant

1998

Resulted in this publication: CDC. Recommendations for prevention and control of hepatitis C virus (HCV) infection and HCV-related chronic disease. *MMWR* 1998;47 (No. RR-19). Available from <http://www.cdc.gov/MMWR/PDF/rr/rr4719.pdf>

## Teaching Experience

University of California, Berkeley, School of Public Health.....

### Division of Epidemiology

Berkeley, CA

Instructor

1995– ...

- PH 251D: Applied Epidemiology Using R, 2004–...
- PH 253B: Epidemiology and Control of Infectious Diseases, 2006, 2008–2011
- PH 257B: Public Health Preparedness and Emergency Response, 2008–2010
- PH 252: Intervention Trial Design, 2008
- PH N257: Essential Field Epidemiology: Outbreak Investigations, 2004–2006 (Summer School)
- PH 257: Outbreak Investigation, 2006
- PH 298: Epidemiologic Analysis, Covered Dr. Steve Selvin course who was on sabbatical
- PH 298: Core Infectious Disease Emergency Readiness, 2005
- PH 298: Essentials of Public Health Epidemiology, 2004
- PH 298: Designing a Public Health Research Protocol, 2004
- PH 298: Epidemiologic Methods for the Study of Infectious Diseases, 2004, 2005
- PH 250B: Epidemiologic Methods II, Co-taught with Drs. Patricia Buffler and Joseph Eisenberg
- PH 250A: Advanced Epidemiologic Methods I, 1996
- PH 250C: Advanced Epidemiologic Methods III, Graduate Student Instructor, 1995

University of California, San Francisco.....

### Department of Epidemiology & Biostatistics

San Francisco

Instructor

1995–2000

- Advanced Training in Clinical Research (ATCR), 1998–2000
- Outcomes Research And CLinical Epidemiology (ORACLE), 1995,1997

## General description of current roles and responsibilities

Under the policy direction of the San Francisco Health Commission, this position performs two major functions: Local Health Officer for the City and County of San Francisco, and Director of the Population Health Division.

### Local Health Officer, City and County of San Francisco.....

The Local Health Officer (LHO) exercises leadership and legal authority to protect and improve health in SF. The LHO assesses the community's health to guide local government's mandated health protection functions. The LHO keeps the governing body informed about all health issues that affect the jurisdiction, and provides advice on medical and public health policy issues.

The LHO is the medical authority who interacts with all segments of the community to lead in the design and implementation of public health policies and programs. The LHO exercises legal authority in a public health emergency, including bioterrorism or infectious diseases. The LHO ensures the effectiveness of mandated health protection functions of local government, including communicable disease control, maternal and child health, emergency services and disaster preparedness, public health lab services, environmental health, vital statistics, and chronic disease prevention.

The LHO is the appointed physician authorized to exercise state police powers, such as isolation and quarantine, to prevent further spread of disease. The LHO enforces local health orders and ordinances, and orders and rules prescribed by the state health department, and the statutes related to public health. The LHO is the local health authority and advisee to stakeholders, such as physicians, hospitals, schools, elected officials, and the general public.

The LHO's roles requires a blend of medical and leadership skills. The LHO's medical training and experience is essential for credibility. To fulfill these mandates and trusts, the LHO must be a physician who has broad skills and knowledge, including clinical medicine; public health, including epidemiology, biostatistics, communicable disease control, environmental health, disaster and emergency response, maternal and child health, and chronic disease prevention; and effective leadership, management, and communication skills.

### Director, Population Health Division (PHD).....

The PHD Director is responsible for the vision, mission, strategy, leadership and administration of the PHD. The PHD is responsible for core public health services across the city, and consists of the following Branches: Environmental Health; Community Health Equity and Promotion; Disease Prevention and Control; Emergency Medical Services Agency; Public Health Preparedness and Response; Office of Policy Development; Epidemiology and Surveillance; Center for Innovation and Learning; Center for Public Health Research; Bridge HIV (HIV research); and Office of Operations, Finance, and Performance Management.

The PHD Director leads efforts to achieve and maintain public health accreditation. He or she ensures the core public health functions and the 10 essential public health services: (1) conducting and disseminating assessments on population health status; (2) investigating health problems and environmental health hazards in the community; (3) informing and educating people about public health issues and functions; (4) engaging the community to identify and address health problems; (5) developing public health policies and plans; (6) enforcing public health laws that protect health and ensure safety; (7) promoting strategies to improve access to health care services; (8) ensuring a competent workforce and professional growth; (9) ensuring continuous quality and performance improvement; and 10) contributing to and applying the evidence base of public health.
