

UC Berkeley Summer 2020 Global Public Health Minor or Certificate Courses

We are currently in the midst of a **global** public health emergency. At least 152 countries have confirmed cases of COVID-19. It has never been more apparent than **now** that careers and expertise in global public health settings are crucial to the health and well-being of our communities.

The UC Berkeley undergraduate summer minor/certificate program in Global Public Health is alive and well and adapting to this changing global health environment. All summer minor/certificate courses for sessions A and D will be offered remotely. There may be opportunities for students to attend some classes on Campus in session D, but this is currently unknown. All courses will have synchronous (live/real-time instruction) during the scheduled time in the course catalog. There may also be asynchronous (offline instruction) components. **The summer minor/certificate can be completed in one or two summers.**

The Global Public Health minor is now offered to UC Berkeley Public Health majors. We also note that **all global public health minor/certificate courses will incorporate COVID-19 or pandemic-related content.**

Please visit our website, <https://publichealth.berkeley.edu/academics/undergraduate/global-public-health/>, or contact Program Advisors, Kimberly Henderson and Patricia Cruz, at sphug@berkeley.edu, for additional information.

There has never been a better time to get involved in global public health, so please join us!

Summer Session A (May 26 - July 2)

PBHLTH N112 Global Health: A

Multidisciplinary Examination

Lecture: T, W, TH 2pm-4pm

Discussion: T, W, TH 4pm-6pm

PBHLTH 118 Nutrition in Developing Countries

Lecture: M, W 9am-1pm

PBHLTH 150B Introduction to Environmental Health Science

Lecture: M, T, W, TH 12pm-2pm
